ABOUT ME

Highly qualified Automation QA Engineer with 6 years of IT experience, specializing in web testing. A solution-focused, hands-on professional who adapts quickly under pressure, mastering new products and platforms, while effectively collaborating across all professional environments.

WORK EXPERIENCE

MPHASIS LIMITED

Bangalore

Aug 2022 - Dec 2025

Automation Test Engineer

- Delivered automated testing for client projects using Playwright with TypeScript, quickly adapting to a new testing framework and programming language to meet project-specific requirements
- Applied training in Selenium with C# to support diverse client testing needs and extend automation coverage across multiple technology stacks
- Utilized GitHub Copilot to accelerate test script development, enhance productivity, and support the rapid delivery of high-quality automated test solutions
- Ensured smooth integration of GitHub Copilot into existing development and testing workflows, aligning AI-assisted coding practices with established team standards
- Achieved Talent Next Certified GitHub Copilot certification at Mphasis with a score of 90% on October 11, 2024, validating strong proficiency in AI-assisted coding and development
- Addressed challenges related to rapid upskilling in Playwright with TypeScript and the adoption of AI-assisted tools, maintaining code quality, reliability, and consistent automated test coverage

SAP LABS INDIA

Bangalore

Sep 2019 - Aug 2022

QA Engineer

- Involved in various phases of testing, including black box, execution, annotation, exploratory, performance, regression, integration, Postman collection, and bug tracking (Jira).
- Developed and executed manual test cases, ensuring quality deliverables.
- Contributed to the design and documentation of test scenarios and test cases.
- Documented findings, tracked bugs, and reported statuses with clear pass/fail results.
- Proficient in using Postman, Swagger API, and pytest for API testing.
- Facilitated continuous improvement projects focused on reducing waste and increasing efficiency.
- Identified and documented any defects found during the course of testing.
